

SERVICES AGREEMENT

entered into by and between

HATALIN PROPERTIES LTD ("Client")

and

QUINTESSENTIAL SFT PRIVATE COMPANY
("Provider")

Date of Agreement	02 / 04 / 2026
Agreement Ref.	QNT-137-2026
Governing Law -Jurisdiction	Greek Law — Courts of Athens
SOW #1 — Annex A	K4RL Proposal Final €66,500 fixed excl. VAT

PARTIES

This Services Agreement (the "Agreement") is entered into as of 02/04/2026 (the "Effective Date") by and between:

Full Legal Name	HATALIN PROPERTIES LTD
Legal Form / Reg. No.	Registration No. 429033
Principal Address	Demosthenous 10, Yianni Maria Building, office 205, 6058, Larnaca, Cyprus
Legal Representative	LYNE ZEIN
ID / Passport No.	23EK34824
Referred to as	"Client"

and

Full Legal Name	Quintessential SFT Private Company (I.K.E.)
TIN / Reg. No.	800930149 — Tax Office: Kefode Attikis
Principal Address	Chamosternas 16, Athens, 11853, Greece
Legal Representative	Daskalakis Alexandros, son of Antonios
ID Card No.	A02118597
Referred to as	"Provider"

Each of Client and Provider may be referred to individually as a "Party" or collectively as the "Parties". The Parties are corporations duly organised, validly existing and in good standing under the laws of their respective jurisdictions of incorporation.

IN CONSIDERATION of the mutual promises and covenants set forth herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

1. DEFINITIONS

In addition to capitalised terms defined on first use herein, the following capitalised terms shall have the meanings ascribed to them below:

- "Acceptance Date" means the date on which Client provides written notice to Provider that a Deliverable conforms to the applicable Specifications, or, if Client fails to provide acceptance or a rejection statement within the Acceptance Period, the date on which such period expires.
- "Acceptance Period" means the period of fifteen (15) calendar days commencing on the applicable Delivery Date within which Client must provide written notice of acceptance or a rejection statement. The Client will also have the right to extend such period by 10 days on suspicion of material defect, by way of notice specifying such suspected defect.

- "Confidential Information" means all ideas, creations, inventions, discoveries, improvements, designs, methods, algorithms, software, written works, research, data and information of any kind (whether oral, written, machine-readable or in any other form) which is provided by or on behalf of Client to Provider hereunder, is otherwise learned by Provider hereunder, or is otherwise related to any Project. Without limiting the generality of the foregoing, Confidential Information shall specifically include all Project Creations, all instructions and specifications given to Provider by Client, all business and marketing plans of Client, all customer and supplier lists of Client, the existence and nature of this Agreement, and the terms and conditions hereof.
- "Deliverable" means any item identified as such in any Statement of Work, and any other item delivered to Client by Provider pursuant to this Agreement.
- "Delivery Date" means the date by which a specific Deliverable is required to be delivered to Client, as set forth in the relevant Statement of Work.
- "Effective Date" has the meaning ascribed to it in the preamble of this Agreement.
- "Force Majeure Event" means any event beyond a Party's reasonable control, including acts of God, war, terrorism, riot, civil commotion, fire, flood, earthquake, epidemic, pandemic, governmental action, strikes or industrial disputes not involving that Party's own personnel, or failure of third-party telecommunications infrastructure.
- "Project" means any project identified in a Statement of Work in connection with which Provider will provide Services hereunder.
- "Project Creations" means all ideas, creations, inventions, discoveries, improvements, designs, methods, algorithms, software, written works, research, data and information of any kind (whether or not patentable or copyrightable) that are made, conceived, reduced to practice or authored by Provider, alone or jointly with others, that relate to any aspect or aim of a Project, the performance of any Services, or are created using or incorporating any Confidential Information. Project Creations shall include all tangible representations and embodiments thereof, including all disks, computer printouts, flow charts, manuals, diagrams, letters, notes, notebooks, documents, reports and models, as well as all Deliverables.
- "Services" means the services to be performed by Provider under this Agreement, as described in detail in the applicable Statement of Work.
- "Specifications" means the technical and functional requirements set forth in the applicable Statement of Work against which Deliverables are assessed.
- "Statement of Work" or "SOW" means a written statement of work attached to this Agreement as an annex, describing the Services to be performed by Provider, the Deliverables, the Delivery Dates, the Specifications, the fees and the payment schedule for a specific Project.
- "Warranty Period" means the period of six (6) months commencing on the Acceptance Date of each Deliverable.

2. SERVICES & DELIVERY

2.1 Engagement and Warranties of Capability

Client hereby assigns to Provider, and Provider accepts and undertakes to perform, the Services described in each Statement of Work attached hereto. Provider declares and warrants that it possesses the necessary know-how and employs adequately qualified personnel to provide the Services required for the completion of all Projects under this Agreement in a diligent, professional and timely manner.

2.2 Client Cooperation

Client agrees to provide Provider with reasonable access to Client's software, documentation, equipment and supplies as necessary for Provider to perform the Services. Client shall designate a named point of contact with authority to provide approvals and directions to Provider within the timeframes set out in the applicable SOW. Provider undertakes an obligation of absolute confidentiality regarding all Confidential Information and data related to Client's activities.

2.3 Scope of Projects

The scope of work for each Project is set forth exclusively in the relevant Statement of Work.

2.4 Delivery; Milestones; Delay

Provider shall complete each Project in accordance with the milestones and Delivery Dates set out in the applicable SOW. In accordance with such milestones, each Deliverable shall be delivered to Client on or before the applicable Delivery Date. In specific, the platform's source code will be delivered by Provider to Client upon payment received with 'Delivery', as stipulated in Article 3.1 of this Agreement.

If the agreed Delivery Date has passed and the relevant Deliverable has not been delivered in accordance with the terms of this Agreement and the applicable SOW due to Provider's fault, then Provider is obliged to allocate additional resources to ensure completion of the relevant Project as soon as reasonably practicable. Client shall not be responsible for incurring any costs as a result of work performed past the agreed Delivery Dates. Additionally, given that the agreed Delivery Date of the whole project, after completion of Phase 6, is exceeded for more than one (1) month due to Provider's fault, the price payable to the Provider shall be reduced on a pro rata basis in accordance with the original delivery schedule. Should such price reductions exceed the aggregate amount of outstanding and future instalments under the agreed payment schedule, the Provider shall compensate the Client by reimbursing the applicable amount from funds already received."

2.5 Out-of-Scope Services

Provider shall perform the Services described in detail in the Statement of Work with due diligence. Any services additional to those included in a SOW that Client may request Provider to provide shall be outside the scope of this Agreement. The remuneration and financial terms for any such additional services must be agreed in writing by both Parties on a case-by-case basis before Provider is obliged to provide them. Provider shall not be obliged to provide any out-of-scope services absent such prior written agreement.

2.6 Post-Warranty Maintenance

Provider retains the right, for a period of two (2) years from the expiry of the Warranty Period applicable to each Deliverable, to maintain and support that Deliverable, should such an arrangement be desired by Client. In such case, Client shall be entitled to request services and pricing terms that are not inferior to the general terms (including list prices) offered by Provider at the time of conclusion of the maintenance agreement.

3. PAYMENTS

3.1 Fees

As full and exclusive consideration for the Services provided by Provider under this Agreement, Client shall pay Provider the fees set forth in the Statement of Work, in accordance with the payment schedules described therein. Provider undertakes the execution of this Agreement acknowledging the contractual consideration as legal, reasonable and in full proportion to the supply of services and the corresponding consideration. A summary of the fixed-fee milestones is as follows:

Milestones	Fee (excl. VAT)
Advance Payment	€15,000
Design Approval	€15,000
Delivery	€30,000
Post Delivery	€6,500
TOTAL FIXED FEES	€66,500 excl. VAT

3.2 VAT

All fees set forth in this Agreement and the Statement of Work are exclusive of Value Added Tax (VAT). VAT shall be charged in addition to the fees at the applicable statutory rate (currently 24% under Greek law) and shall be born by Client.

3.3 Invoicing and Payment Terms

Provider shall issue invoices in accordance with the milestone payment schedule set out in the SOW.

3.4 Provider's Costs and Expenses

Save where a Statement of Work expressly provides otherwise, Provider shall bear all costs and expenses incurred by it in performing the Services, including without limitation all equipment, software licences, and personnel costs. All fees are inclusive of such costs unless otherwise expressly stated in a SOW.

3.5 Taxes

Each Party shall bear and be responsible for all taxes, duties, levies and social contributions assessed upon it in connection with its own activities under this Agreement, including in respect of its own personnel. Provider shall be responsible for payment of all remuneration to its employees, agents and subcontractors engaged to perform Services under this Agreement, as well as for all applicable social security contributions and employer-side payroll taxes.

4. RIGHTS IN DELIVERABLES

4.1 Assignment of Intellectual Property

All Deliverables and all rights, titles and interests of any kind therein or thereto shall be the exclusive property of Client from the moment of their creation. To the extent that any Project Creation may be treated as a "work made for hire" under applicable copyright law, any economic

*and moral rights of the project, regardless of its completion stage, shall belong exclusively to the client. Such Project Creation shall be a work made for hire and shall be owned by Client from its creation. Without prejudice to limiting the foregoing, Provider hereby irrevocably assigns and conveys, and agrees to assign and convey, to Client all rights, titles and interests in and to all Deliverables worldwide, including all copyright, patent, trade secret, mask work and trade mark rights, and all other intellectual property and proprietary rights of any kind, including all applications and registrations therefor. Provider agrees to execute and procure such documents, including short-form assignments and patent, copyright and trade mark applications, and to take such other actions as may be reasonably requested by Client from time to time to perfect, confirm, protect, enforce or otherwise exploit in any manner the Deliverables or any rights therein. These obligations shall survive termination of this Agreement. Additionally, the provider hereby irrevocably authorizes the client to execute any such assignment of said rights, titles and interests, in the event they refuse and/or are unable to do so. **Quintessential retains the right to reference the project in its portfolio unless otherwise agreed in writing.***

4.2 Obligations with Respect to Personnel

To the extent it has not already done so, Provider shall require all of its employees, contractors and agents who have participated or will participate in the development of any Project Creations to enter into binding written agreements with Provider that will enable Provider to fulfil its obligations under this Section 4 and its other obligations under this Agreement. All acts and omissions of Provider's employees, contractors and agents shall be deemed to be those of Provider, and Provider shall be solely responsible therefore.

4.3 Future Third-Party Development

Provider explicitly accepts Client's right to engage third parties to maintain, modify, upgrade or further develop any software or digital product delivered as a Deliverable under this Agreement, without any further consent or involvement of Provider being required, and without Provider bearing any responsibility for issues arising from such third-party development.

5. WARRANTIES, INDEMNIFICATION & LIMITATION OF LIABILITY

5.1 Provider Representations and Warranties

Provider represents and warrants to Client that, as of the Effective Date and on a continuing basis throughout the term of this Agreement:

- (a) **Personnel Competence:** Provider's personnel assigned to perform the Services shall possess the necessary competence, qualifications and professionalism to perform the Services at the highest standards prevailing in the relevant industry, and all Services shall be performed diligently and in a good and workmanlike manner, in accordance with the standard of skill and care normally expected of a professional person in the applicable field.
- (b) **Security:** Provider shall not permit and shall take all reasonable technical and organisational measures to prevent the introduction of any virus, trojan horse, worm or other malicious or unauthorised code into any data, database, computer program, computer resource or computer system of Client.
- (c) **Title:** Upon delivery of each Deliverable, Client will have good and marketable title to that Deliverable, free and clear of all liens, encumbrances, third-party rights and restrictions.
- (d) **Conformance with Specifications:** The Deliverables will meet the Specifications set forth in the applicable Statement of Work on or before the applicable Delivery Date and will be fit for the purposes described in the relevant SOW. The Parties acknowledge that all software inherently contains a reasonable number of non-material defects and that the existence of such defects does not, in itself, constitute a failure of the Deliverables to conform to the

Specifications. Client shall provide Provider with written notice that the relevant Deliverable conforms to the Specifications, or a written rejection statement specifying each non-conformity in reasonable detail, within the Acceptance Period. Client shall not reject or withhold acceptance of any Deliverable on the basis of non-material deviations that do not prevent the Deliverable from performing its essential operational purpose as described in the applicable SOW. Only material defects that materially impair the functionality, appearance or intended use of the Deliverable shall justify withholding acceptance. If Client fails to provide either a written acceptance or a written rejection statement within the Acceptance Period, the Deliverable shall be deemed accepted as of the expiry of the Acceptance Period.

- (e) **Warranty Period:** For the duration of the Warranty Period, each Deliverable shall operate in accordance with the Specifications. In the event of any error, defect, deficiency, failure, problem or non-conformance in any Deliverable within the Warranty Period, regardless of whether the defect is substantial or insignificant, Provider shall, at its own option and at no cost to Client, repair or replace the affected Deliverable, or otherwise remedy the non-conformance, within a reasonable deadline set by Client, provided that the relevant software has been installed and operated in accordance with Provider's documentation and any other written instructions provided by Provider.
- (f) **Non-Conflict:** Provider's execution, delivery and performance of this Agreement (including any SOW) will not conflict with, or constitute a breach of, any law, rule, regulation, order or any agreement, restriction or obligation to which Provider is a party or by which Provider is bound, including any agreement or obligation restricting the use or disclosure of any third-party information or technology.
- (g) **Non-Infringement:** Neither the Deliverables nor the Project Creations, nor any permitted use thereof by Client, will infringe, misappropriate or otherwise violate or conflict with any patent, copyright, trade mark, trade secret, mask work or other intellectual property or proprietary right of any third party, except to the extent that any SOW expressly accepts the use of open-source software components which are identified and agreed therein.

5.2 Indemnification

Provider shall indemnify, defend and hold harmless Client, its affiliates, and their respective officers, directors, employees, agents, licensors, licensees and customers from and against any and all claims, actions, proceedings, losses, damages, liabilities, costs and expenses (including reasonable legal fees) to the extent arising out of or relating to any breach of this Agreement by Provider due to willful misconduct or gross negligence. The aggregate liability of Provider to Client for all claims arising under or in connection with this Agreement, whether based in contract, tort (including negligence) or otherwise, shall not exceed an amount equal to the total fees actually paid by Client to Provider.

5.3 Exclusion of Consequential Loss

In no event shall either Party be liable to the other for any special, incidental, exemplary, punitive, indirect or consequential damages, loss of profits, loss of revenue, loss of data or loss of goodwill, arising from or relating to this Agreement, even if such Party has been advised of the possibility of such damages.

5.4 Warranty Exclusivity

The warranties set forth in this Agreement are the only warranties granted by Provider. Provider disclaims all other warranties, express or implied, including without limitation any implied warranties of merchantability, satisfactory quality, or fitness for any purpose not expressly described herein.

6. INDEPENDENT CONTRACTOR STATUS

The relationship between Provider and Client under this Agreement shall be solely that of independent contractors. Client shall have the right in its reasonable discretion to direct the overall objectives and requirements of each Project. As an independent contractor, Provider shall be solely responsible for determining the means and methods of performing the Services. Neither Provider nor any of Provider's employees or personnel performing services for Client shall be considered employees, agents or workers of Client for any purpose whatsoever, including for tax, social security, employment law or any other regulatory purpose. Client shall not be responsible for Provider's acts or the acts of Provider's employees or personnel. Nothing in this Agreement shall be construed to imply a joint venture, partnership, employment relationship or principal-agent relationship between the Parties. Neither Party shall, by virtue of this Agreement, have any right, power or authority to act or create any obligation, express or implied, on behalf of the other Party.

7. TERM & TERMINATION

7.1 Term

This Agreement shall commence on the Effective Date and shall continue in full force and effect until all Statements of Work have been completed and all obligations of the Parties thereunder discharged, or until earlier terminated in accordance with this Section 7.

7.2 Termination for Material Breach

Either Party may terminate this Agreement, or any individual SOW hereunder, upon material breach of the Agreement or relevant SOW by the other Party, subject to the breaching Party having failed to cure such breach within thirty (30) calendar days of receipt of written notice from the non-breaching Party specifying the breach in reasonable detail. Upon termination under this Section 7.2: (i) Provider shall have no further obligation to perform any work under the terminated Agreement or SOW; (ii) Provider shall promptly inform Client of the extent to which performance has been completed as of the termination date; and (iii) Upon termination under this Section 7.2 for material breach by Provider: (a) Provider shall promptly collect, compile and deliver to Client, at Provider's sole cost, all work product, source code, documentation, designs and other materials then existing in connection with the terminated Project, in such form and manner as Client may reasonably direct; (b) Client shall have no obligation to pay any fees or amounts not yet invoiced or not yet fallen due as of the effective date of termination; (c) to the extent that Client retains and makes use of any Deliverables or work product delivered by Provider prior to termination, Client shall pay to Provider an amount equal to the objective value of such retained work product, assessed as at the date of termination, which amount shall in no event exceed the pro rata share of the relevant milestone fee corresponding to the proportion of work actually completed and accepted or deemed accepted by Client prior to termination; (d) for the purposes of sub-paragraph (c), the objective value shall be determined by reference to the market value of comparable services and deliverables and shall exclude any element of Provider's lost profit, overhead allocation, or opportunity cost; (e) Client shall be entitled to set off against any amount payable under sub-paragraph (c) all losses, costs and damages suffered or incurred by Client as a result of Provider's breach, including the reasonable cost of engaging an alternative provider to complete the Project(s); and (f) any dispute as to the objective value of retained work product shall be resolved in accordance with Section 13 of this Agreement.

7.3 Termination for Insolvency

In the event of dissolution, bankruptcy, appointment of a liquidator or administrator, placement under special liquidation regime, or any analogous event affecting Provider, Client shall have the right, at its sole discretion, to terminate this Agreement immediately upon written notice to Provider.

7.4 Survival

Sections 4, 5, 8, 9 and 10 herein, as well as any other provisions of this Agreement which by their nature should reasonably survive termination or expiration, shall survive any termination or expiration of this Agreement.

8. CONFIDENTIALITY

In consideration of the mutual undertakings contained herein, Client acknowledges that Provider will have possession of and access to Confidential Information, and that the Confidential Information is a valuable asset of Client. Each Party hereby undertakes in relation to the other that it shall:

- Not at any time, without the prior written consent of the disclosing Party, disclose or reveal any Confidential Information to any person or third party whatsoever, and shall not transmit any Confidential Information by post, fax, telephone, video conferencing, electronic mail or by way of any other form of data transmission without the prior written consent of the disclosing Party.
- Use Confidential Information solely for the purposes agreed between the Parties under this Agreement and for no other purpose.
- Maintain strict confidentiality in respect of all Confidential Information received. The standard of confidentiality maintained shall be no less rigorous than the standard each Party applies to its own confidential information, and in any event no less than a reasonable standard of care.
- Treat and safeguard as strictly private and confidential all Confidential Information received or communicated to it.
- Not at any time, without the prior written consent of the other Party, take, make or retain any copies, reproductions or facsimiles of any Confidential Information in any form or medium, except to the extent reasonably necessary for the performance of the Party's obligations under this Agreement.
- Keep all Confidential Information, and all information generated therefrom, separate from all other documents and records.
- Keep all documents and other materials bearing or incorporating any Confidential Information at its usual place of business and not store any Confidential Information in any externally accessible computer or electronic information retrieval system.
- Grant access to Confidential Information only to those employees, consultants, agents and professional advisers (including bankers, lawyers, accountants and technical advisers) who have a strict need to access it for the purposes of this Agreement, and shall in each case inform such persons of the confidential nature of the Confidential Information and procure that they are bound by obligations of confidentiality no less stringent than those contained in this Section 8.
- Where Confidential Information is stored in physical form and the disclosing Party requires its destruction, destroy it by cross-shredding, burning, pulping or pulverising, as appropriate. Where Confidential Information is stored in electronic form and the disclosing Party requires its destruction, ensure that all storage media containing such information is securely deleted.

and overwritten; if such deletion or overwriting cannot be verified to prevent subsequent access, the relevant media shall be physically destroyed.

- Upon written request from the disclosing Party, immediately cease all use of the Confidential Information and either return to the disclosing Party, or destroy (at the disclosing Party's election), all original versions and copies of the Confidential Information in its possession. Within seven (7) calendar days of such return or destruction, the receiving Party shall provide the disclosing Party with a written declaration confirming that it has not retained any document, file or other medium containing any part of the Confidential Information.

8.1 Personnel Compliance

Parties shall take all necessary technical, organisational and contractual measures to ensure that their employees, partners, agents and subcontractors are fully aware of and comply with the confidentiality obligations set forth in this Section 8.

8.2 Survival

The termination or expiration of this Agreement shall not relieve either Party of its confidentiality obligations under this Section 8 with respect to Confidential Information disclosed or obtained prior to such termination or expiration.

9. DATA PROTECTION

9.1 General

Each Party shall comply with its respective obligations under Regulation (EU) 2016/679 (the General Data Protection Regulation, "GDPR"), Greek Law 4624/2019, and any other applicable data protection legislation (collectively, "Data Protection Law") in connection with its activities under this Agreement.

9.2 Provider's Processing of Personal Data

To the extent that Provider processes personal data on behalf of Client in the performance of the Services, Provider shall: (i) process such data only on documented instructions from Client; (ii) implement appropriate technical and organisational measures to protect such data against unauthorised or unlawful processing, accidental loss, destruction or damage; (iii) not engage sub-processors without Client's prior written consent; (iv) assist Client in fulfilling its obligations to respond to requests from data subjects exercising their rights under Data Protection Law; and (v) upon termination of this Agreement, delete or return all personal data processed on behalf of Client, at Client's election. Where required by Data Protection Law, the Parties shall enter into a data processing agreement in the form required by applicable law.

10. FORCE MAJEURE

Neither Party shall be in breach of this Agreement or liable for any delay or failure to perform any of its obligations under this Agreement (other than any obligation to make a payment of money) to the extent that such delay or failure results directly from a Force Majeure Event, provided that: (i)

the affected Party notifies the other Party in writing without undue delay upon becoming aware of the Force Majeure Event, describing the event and its anticipated impact and duration; (ii) the affected Party uses reasonable endeavours to mitigate the effects of the Force Majeure Event and to resume performance as soon as reasonably practicable; and (iii) if a Force Majeure Event continues for a period exceeding sixty (60) calendar days, either Party may terminate the affected SOW(s) by written notice, without liability to the other, save that Provider shall be entitled to payment for all work properly performed and costs reasonably incurred prior to the Force Majeure Event.

11. NOTICES

All notices, requests, demands, consents, approvals and other communications required or permitted under this Agreement shall be made in writing and shall be deemed duly given: (i) when delivered personally to the recipient; (ii) one (1) business day after being sent by a recognised overnight courier service with tracking confirmation; (iii) three (3) business days after being sent by registered or certified post with return receipt requested; or (iv) on the same business day when sent by email and receipt is confirmed by the recipient in writing (including by reply email). Notices to Provider shall be addressed to: Quintessential SFT P.C., Chamosternas 16, Athens, 11853, Greece, attn: Daskalakis Alexandros. Notices to Client shall be addressed to the details set forth in the preamble of this Agreement, or such other address as a Party may designate in writing from time to time.

12. MISCELLANEOUS

12.1 Authority

Each person executing this Agreement represents and warrants that: (i) they are duly authorised to execute and deliver this Agreement on behalf of the relevant Party; (ii) no further authorisation or consent is necessary or required; and (iii) upon execution, this Agreement will constitute a valid, binding and enforceable obligation of the relevant Party in accordance with its terms.

12.2 Entire Agreement; Amendments

This Agreement, including the Statement of Work annexed hereto, constitutes the entire agreement of the Parties with respect to its subject matter and supersedes all prior agreements, understandings, representations and writings relating thereto. This Agreement may not be amended or modified except by an express written instrument signed by duly authorised representatives of both Parties. Any waiver under this Agreement must be in writing and signed by the waiving Party to be enforceable and shall not constitute a waiver of any subsequent breach of the same or any other provision.

12.3 Independent Contractors

The relationship of the Parties hereunder is solely that of independent contractors. Each Party shall comply with all laws, rules and regulations applicable to its activities under this Agreement and shall be solely responsible, with respect to itself and its personnel, for all obligations arising under employment law, workers' compensation, social security, unemployment insurance, tax withholding and all other analogous legal requirements.

12.4 No Waiver

The failure of a Party to require strict performance of any provision of this Agreement by the other, or the forbearance to exercise any right or remedy, shall not be construed as a waiver of any such right or remedy and shall not preclude any other or further exercise of such right or remedy or the exercise of any other right or remedy.

12.5 No Assignment

Neither this Agreement nor any rights or obligations hereunder may be assigned, transferred, sub-contracted or otherwise disposed of, in whole or in part, without the prior written consent of the other Party. This Agreement shall be binding upon and inure to the benefit of the Parties and their respective successors and permitted assignees. Any purported assignment in violation of this clause shall be null and void.

12.6 Severability

If any provision of this Agreement is held by a court of competent jurisdiction to be invalid, illegal or unenforceable, it shall be replaced by a provision which is as similar as possible in intent and effect to the original provision but is valid, legal and enforceable, and the validity, legality and enforceability of the remaining provisions of this Agreement shall not in any way be affected or impaired thereby.

12.7 Non-Solicitation

During the term of this Agreement and for a period of twelve (12) months following its termination or expiration, neither Party shall, directly or indirectly, solicit or attempt to solicit for employment or engagement, or hire or engage, any employee, contractor or agent of the other Party who has been directly involved in the performance of Services under this Agreement, without the prior written consent of the other Party.

12.8 Interpretation

As used in this Agreement, unless the intent is expressly otherwise in a specific context: (i) the words "include", "includes" and "including" shall be deemed to be followed by the words "without limitation" and shall not be construed as terms of limitation; (ii) "or" shall not be exclusive; (iii) references to a "Section" are to a section of this Agreement; (iv) section headings are included for reference and convenience only and shall not affect the interpretation of this Agreement; and (v) references to any legislation include that legislation as amended, re-enacted or replaced from time to time.

13. GOVERNING LAW & DISPUTE RESOLUTION

This Agreement, and any dispute, controversy or claim arising out of or in connection with it or its subject matter, formation, interpretation, performance, breach, termination or validity (including non-contractual disputes or claims), shall be governed by and construed in accordance with the laws of Greece, excluding its conflict of laws provisions.

The Parties shall make every effort to resolve any dispute, contention or disagreement arising from or in connection with this Agreement through good-faith negotiations within a reasonable period of time, not to exceed thirty (30) calendar days from the date on which either Party notifies the other of the existence of the dispute in writing. In the event that such negotiations fail to resolve the dispute within that period, any dispute or controversy shall be submitted to and exclusively resolved by the competent Courts of Athens, Greece, to whose jurisdiction the Parties hereby irrevocably and unconditionally submit.

IN WITNESS WHEREOF, the Parties have caused this Agreement to be executed by their respective duly authorised representatives as of the Effective Date.

ANNEX A — STATEMENT OF WORK

Design & Development of the K4RL Platform-Phase 1

Client	HATALIN PROPERTIES LTD
Provider	Quintessential SFT Private Company
Incorporated in Agreement	This SOW #1 forms Annex A to the Services Agreement
Subject Matter	Design and development of the K4RL platform — Phase 1
Fixed Price	€66,500 excl. VAT
Estimated Timeline	32 weeks from Kickoff (excluding 2 weeks from the summer holidays)
Estimated Kickoff	14/04/2026

1. INTRODUCTION

1.1 Introduction

This document constitutes the formal project proposal from Quintessential to the K4RL client for the design and development of the K4RL platform — Phase 1. It details the confirmed scope of work, deliverables, technical clarifications, timeline, investment, and contractual terms.

K4RL is a SaaS platform enabling fashion brands to generate EU-compliant Digital Product Passports (DPPs) in minutes through a self-serve, autofill-powered product identity system. The platform tracks ownership across the product lifecycle and provides a consumer-facing layer for authenticity verification and ownership transfer.

Quintessential will be responsible for the full product design and engineering of Phase 1, from UX/UI through to a production-ready system. The client is responsible for domain expertise, content decisions, and all third-party relationships referenced herein.

1.2 Project Understanding

Based on the discovery workshops and documentation provided, Quintessential has identified the following core product pillars for Phase 1:

Component	Description
DPP Generator	Brands create EU-compliant Digital Product Passports with autofill from material libraries — reducing a multi-step process to under 6 minutes.
Product Identity System	Every individual item receives a unique QR code paired with a unique claim code. 500 pieces of the same SKU = 500 unique QR and claim code pairs.
Autofill Engine	Controlled material library with admin-managed vocabulary. Brands select; the system populates downstream compliance data automatically using the client-provided custom methodology.
Ownership Tracking	Append-only, immutable ownership history. Items move through locked → unlocked → claimed states. Re-lock on return; all claim events remain permanently in the product timeline.
Consumer Layer	Public DPP page (no login required) and consumer web app for scanning, claiming, and transferring ownership. Claiming an item requires both a QR scan and the unique claim code.

Component	Description
Factory Flow	Link-based certificate upload and label download. No factory portal or account creation required.

2. SCOPE OF WORK — PHASE 1

The following sections define the confirmed deliverables for Phase 1. Any items explicitly listed as out of scope in Section 5 are excluded from this proposal and would require a separate engagement.

2.1 K4RL Admin Portal

The admin portal is an internal tool for Quintessential's client team. It provides platform orchestration and material library management.

- Global material library management — add, edit, and approve materials
- Controlled vocabulary enforcement — brands cannot invent material names outside the approved library
- AI-assisted flagging of suspicious or non-standard material submissions
- New material request review flow — brands submit requests; admin approves or rejects
- Brand account management — view all registered brands on the platform
- Platform-level analytics dashboard

The following items are not included in this scope and must be separately confirmed before they can be scoped and priced: brand tier classification, micro-fee distribution configuration, care instruction pack management, category profile management, CO₂ and water impact defaults, recyclability rules management, and DPP schema versioning.

2.2 Brand Portal

The brand portal is the core product. It is a self-serve platform where brands create DPPs, manage products, coordinate with factories, manage team roles, and handle billing.

Product Creation and Autofill

- Create products with SKU identification
- Material selection from the controlled library, with automatic population of downstream compliance data
- Percentage validation — material composition must total 100%
- Optional product image upload
- Unknown material request flow — brand submits a request, which triggers an admin review

DPP Generation

- One-click DPP generation once all required fields are validated
- Immutable DPP storage with timestamp — cannot be deleted or modified after generation

- Unique public URL generated per DPP

QR Code and Label Generation

- Batch generation of QR codes and claim codes per SKU — for example, 500 pieces of a SKU produces 500 unique QR and claim code pairs
- Each QR code and claim code are generated together and paired 1:1. The QR code is printed visibly on the label; the claim code is printed on the same tag but is not immediately visible — on the back or inside a fold
- Label generator outputs factory-ready print formats
- Labels are dispatched to the factory via a secure link — no factory account is required

Eco-Scoring

- Brands can generate an environmental impact score using the client-provided custom algorithm
- Brands choose whether to make the score publicly visible on the product's DPP page
- Once made public, the score is permanently displayed and cannot be retracted

Factory Management

- Add and store factory details — name, country, and type
- Send certificate upload links to factories by email — no factory login required
- Send label download links to factories by email
- View and manage uploaded factory certificates

Reseller Management

- View and manage authorised resellers and stores
- Invite-based system — brands invite stores to participate in the platform
- Manage pending access requests from resellers

Brand Role Management

The brand portal includes two internal roles:

- Brand Admin — full access, including product creation, DPP management, team management, and billing
- Brand Editor — access to product and DPP creation; no access to billing or team management settings

Subscription and Billing

- Integrated subscription and billing via Stripe or an equivalent provider
- Predefined plans: Starter, Growth, and Enterprise

2.3 Consumer Web App

A lightweight, mobile-optimised web application for end customers to verify authenticity, claim ownership, and manage transfers. The claim flow is entirely customer-led and self-serve. It works independently of any store action, staff training, or system integration.

Claim Flow

Every item carries one unique QR code and one unique claim code, paired at the point of generation. The claim code is single-use. The flow is as follows:

- The user scans the QR code and views the full product information page — no login required at this stage
- The user selects 'Activate your product'
- The user enters their email address
- The user enters the claim code from the physical tag
- Ownership is assigned to that email address

Ownership and Transfer

- User registration and login
- Claim ownership of any unlocked item using the QR and claim code flow
- Initiate an ownership release — re-locking the item — when reselling. The ownership event is timestamped and remains permanently in the product timeline, regardless of how briefly the item was owned
- Receive email notification when a new party requests to claim an owned item
- Approve or reject incoming ownership claim requests
- Full transfer flow: new owner scans the QR code, enters the claim code, submits a claim request, current owner receives an email, approves the transfer, and the event is logged in the timeline

Claim Grace Period

- Once an item is unlocked, the claim window is open for 48 to 72 hours
- The system sends an email reminder to the registered address every 12 hours, stating how much time remains to claim the item
- If the item is not claimed within the grace period, it reverts to the unlocked state

Fraud and Disputes

- A fraud claim button allows any user to flag a disputed ownership record
- Disputes are handled directly by the brand. K4RL sends a notification to the brand upon any claim event and upon receipt of a fraud flag. K4RL does not mediate or arbitrate ownership disputes

2.4 Public DPP Page

A public, no-login product information page accessible to anyone who scans a QR code. This is the minimum EU-compliant consumer-facing output for Phase 1.

- Displays country or region of manufacture
 - Displays material composition
 - Displays environmental impact information
 - Displays the eco-score if the brand has chosen to make it public
 - Prompt to claim ownership, shown only if the item is unlocked and unclaimed
 - Links to the consumer web app for registration and claiming
 - Brand customisation via a selection of predefined templates. Full white-label styling with unrestricted customisation is a paid feature deferred to a later version of the platform
-

2.5 Factory Flow

Factories do not receive a portal or account in Phase 1. All factory interaction is handled through secure links sent by the brand via email.

- The brand generates a certificate upload link. The factory receives the link by email, clicks it, and uploads their OEKO-TEX, GOTS, or other compliance certificates
- The brand generates a label download link. The factory receives the link by email, clicks it, and downloads QR labels in print-ready format. Each label includes both the QR code and the claim code for that item
- No factory account creation, login, or software adoption is required at any point
- Factory details — name, country, type — are stored within the brand account for repeat use

A full factory portal with login, profile, and dashboard is explicitly deferred to a future phase.

2.6 Unlock Mechanism

The unlock mechanism for Phase 1 is auto-unlock on first scan. When any user scans the QR code on an item for the first time, the item is automatically unlocked and the claim window opens. No store interface, staff training, or point-of-sale integration is required for the unlock event. The system is entirely customer-led.

Security is maintained through the QR and claim code pairing. Scanning the QR code alone opens the product information page and starts the claim window, but completing an ownership claim additionally requires entry of the unique claim code printed on the physical tag. This code is not immediately visible — it is printed on the back or inside a fold of the tag — making fraudulent pre-purchase scans ineffective for claiming ownership.

A store invite web app and ERP-triggered unlock were considered as alternative mechanisms. Both are excluded from Phase 1. If ERP-based unlock is required by a brand in a future phase, K4RL will expose a documented REST API endpoint for this purpose. The cost of ERP integration remains the responsibility of the brand or its integration partner.

2.6 Subscription and Billing

Phase 1 includes a fully functional subscription and billing system integrated within the brand portal.

Subscription Tiers

- Starter — up to 500 DPPs per month (indicative pricing: approximately €29 to €99 per month)
- Growth — higher DPP volume with an expanded monthly allowance
- Enterprise — custom volume, API access, and advanced features

Billing Features

- Plan selection, upgrade, and downgrade flow within the brand portal
 - Overage handling — automatic per-QR charge when the monthly DPP limit is exceeded
 - Payment method management via card on file through Stripe
 - Invoice generation and downloadable billing history
 - Subscription status display — active, past due, cancelled, or trialling
 - Webhook handling for key payment events: successful charge, failed payment, subscription renewal, and cancellation
-

3. INTEGRATIONS AND TECHNICAL CLARIFICATIONS

The following section addresses all items that involve integration with third-party systems or external services. Quintessential will deliver clear, documented API interfaces on the K4RL platform side. Any work required on a third-party system — including ERP customisation, marketplace API access agreements, or payment gateway configuration — falls outside this scope unless explicitly stated below.

3.1 ERP Integration

ERP integration is not included in Phase 1. K4RL will expose a documented REST API endpoint that, when called with the appropriate credentials, triggers the unlock of a specific QR code. This endpoint is available for brands or their integration partners who wish to connect an ERP system to the unlock event in a future phase.

For large brands, their own development team or integration partner is responsible for connecting their ERP system to the K4RL API. For smaller brands using Greek ERPs such as Softone or Entesoft, integration through a third-party integrator is similarly outside scope. Quintessential will provide the API documentation. The cost and coordination of any ERP integration is the brand's or client's responsibility.

3.2 Marketplace API Integrations

Marketplace integrations with Vinted, StockX, Depop, and similar platforms are not included in Phase 1. K4RL will expose a documented API that marketplace platforms can call to facilitate automated ownership transfer at the point of resale.

Establishing commercial API access agreements with any marketplace is entirely the client's responsibility. Quintessential will not initiate, negotiate, or maintain these relationships. Once API access credentials are provided by the marketplace, Quintessential can build the specific integration as a separately scoped and priced module.

For peer-to-peer resale outside of official marketplaces, the consumer web app transfer flow described in Section 3.3 handles all cases natively without any third-party integration.

3.3 Autofill Data Source and Eco-Scoring Methodology

The autofill data source and eco-scoring methodology for Phase 1 are based on a custom algorithm developed by the client with an external expert. A simplified Version 1 of this algorithm will be used for Phase 1.

Quintessential will build the scoring engine and autofill engine based on the methodology as documented and delivered by the client. Quintessential does not design, validate, or take any responsibility for the accuracy, completeness, or regulatory compliance of the algorithm or its outputs.

The complete, documented methodology must be delivered to Quintessential no later than the end of Week 4 of the project, during the design phase. Late delivery of this material will extend the overall project timeline and may affect the total investment.

4. OUT OF SCOPE — PHASE 1

The following items are confirmed as out of scope for Phase 1. Inclusion of any of these would require a separate scope document and revised investment.

Item	Description	Status
Full Factory Portal	Login, profile, and dashboard for factories	Future phase
Full Reseller / Store Portal	Multi-brand store management, analytics, and inventory	Future phase
Store Unlock Interface	Store-side web app for triggering unlock at point of sale — not required under the confirmed auto-unlock mechanism	Removed from scope
ERP Integration	Any specific ERP system connection	Client / integrator responsibility
Marketplace Integrations	Vinted, StockX, Depop API connections	Phase 2, post-agreement
RFID Integration	Hardware-level product tracking	Future phase
Supply Chain Tracking	Full logistics tracking across transport and warehousing	Future phase
3D Model Generation	AI-based garment visualisation	Future phase
Wardrobe and Styling Features	Consumer wardrobe management and outfit suggestions	Future phase
PLM Integration	Integration with existing brand PLM systems	Research phase required first
P2P Resale Fees	Automated resale fee collection and distribution	Deferred to later phase
Full White-Label Public Page	Unrestricted custom brand styling on public DPP page	Paid add-on, later version
Brand Tier System	Green, Grey, Red brand classification and associated fee logic	Not confirmed — excluded
Micro-Fee Distribution	Automated resale fee collection and distribution	Not confirmed — excluded
Native Mobile App	iOS or Android native application	Web app only

5. TIMELINE

The following is the indicative phased timeline for Phase 1. Final dates will be confirmed at the project kick-off, following contract signing and receipt of the advance payment. The schedule assumes client feedback is provided within 5 business days at each review gate.

Phase	Weeks	Description
Phase 0 — Pre-Build	1–2	Tech stack alignment, data model confirmation, and project kick-off. All blocking decisions are already resolved.
Phase 1 — UX/UI Design	3–9	Full wireframe and high-fidelity design of all portals and flows. Client sign-off required before development begins.
Phase 2 — Core Infrastructure	9–14	Backend architecture, database, authentication, DPP engine, autofill engine, and QR and claim code generation.

Phase	Weeks	Description
Phase 3 — Portal Development	15–22	Admin portal, brand portal, consumer web app, public DPP page, and factory link flow.
Phase 4 — Ownership Systems	20–25	Auto-unlock mechanism, claim flow with QR and claim code, transfer flows, re-lock on return, claim grace period system, and fraud claim feature. Runs concurrently with Phase 3.
Phase 5 — QA and Refinement	26–28	Full system testing, bug resolution, performance optimisation, and client user acceptance testing.
Phase 6 — Staging and Delivery	29–32	Staging environment delivery, documentation, deployment preparation, and project handoff.

The total duration of 6 to 8 months depends on the client delivering the eco-scoring algorithm and autofill methodology in a complete, documented format no later than the end of Week 4. Any delay in this delivery will shift the overall timeline and may affect the total investment.

6. INVESTMENT

Total Investment — Phase 1: €66,500

All amounts are exclusive of VAT. The investment covers the full scope defined in Section 3, including design, engineering, QA, project management, and delivery. It excludes any third-party licensing fees, API access costs, hosting infrastructure, and domain registration.

6.1 Payment Schedule

Milestone	Amount	Share	Trigger
Advance Payment	€15,000	aprox. 22%	Upon contract signing
Design Approval	€15,000	aprox. 22%	Written sign-off on all high-fidelity UI/UX designs
Delivery	€30,000	aprox. 45%	Complete system delivered to agreed staging environment
Post-Delivery	€6,500	aprox. 11%	30 days after delivery and after acceptance

Advance Payment: Due upon contract signing. Work does not commence until this payment is received.

Design Approval: Due upon written client sign-off on all high-fidelity designs for all portals. Development does not begin until both this payment is received and designs are formally approved.

Delivery: Due upon delivery of the complete system to the agreed staging environment, including all features defined in Section 3.

Post-Delivery: Due 30 days after delivery. This milestone covers the acceptance period, during which Quintessential will address any bugs or deviations from the agreed specification. It does not cover new features or scope changes.

6.2 What Is Included

- Full UX/UI design for all portals and user flows
- Frontend and backend engineering
- Database architecture and DPP data model
- Autofill engine, built to the client-provided custom methodology
- QR code and claim code generation system — paired 1:1 per item
- Auto-unlock mechanism, claim flow, re-lock on return, and transfer system
- Claim grace period with timed email reminders
- Brand Admin and Editor role management
- Factory link flow — certificate upload and label download
- Subscription and billing integration via Stripe
- Project management throughout
- QA and testing
- Staging environment delivery and handoff documentation
- 30-day acceptance support period
- 3-month support period following acceptance

6.3 What Is Not Included

- Third-party API integration work — ERP systems, Vinted, StockX, Depop, and others
- Hosting infrastructure, servers, domain registration, and SSL certificates
- Third-party licensing fees, including any data providers or payment gateway setup costs
- Eco-scoring algorithm design or validation — this is the client's responsibility
- Content creation, copywriting, and translation
- Marketing website or landing page
- Support beyond the 3-month post-acceptance period
- Branding

7. TERMS AND CONDITIONS

7.1 Intellectual Property

Upon receipt of all payments in full, all intellectual property rights in the deliverables — including design assets, source code, and documentation — are transferred to the client. Quintessential retains the right to reference the project in its portfolio unless otherwise agreed in writing.

7.2 Scope changes

Any requests to add, modify, or remove features after design sign-off will be assessed and priced as change requests. Quintessential will provide a written estimate and timeline impact for each change request. No out-of-scope work will begin without written client approval.

7.3 Client Responsibilities

The client is responsible for the following throughout the engagement:

- Providing timely feedback within agreed review windows — 5 business days unless otherwise agreed
- Delivering the complete, documented eco-scoring algorithm and autofill methodology no later than the end of Week 4
- Delivering all other required content, data, and third-party credentials in time to support the development schedule

- Designating a single point of contact with decision-making authority for the project
- Ensuring all information provided to Quintessential is accurate and legally compliant

7.4 Delays

If the project is delayed due to client-side factors — including late feedback, missing content, or withheld payments — the timeline will shift accordingly. Quintessential reserves the right to adjust resource allocation during extended client-side delays. If a project is paused at the client's request for more than 30 consecutive days, a re-mobilisation fee may apply.

7.5 Proposal Validity

This proposal is valid for 30 days from the date of this version. Quintessential reserves the right to review pricing and availability if the engagement does not commence within this period.
